

Bio-Bingo

Bio-Bingo is a twist on the classic number calling Bingo game. Instead of numbers, each sheet has pictures of different plants and animals you may see in New Jersey.

HOW TO PLAY:

- ◆ You can play this game by yourself or with others.
- ◆ Choose a Bio Bingo sheet and look over the different kinds of animals and plants pictured on it.
- ◆ Take a short walk around your neighborhood or even look out your window and see if you can find any of the objects on your sheet.
- ◆ If you spot something outside that is pictured on your sheet, mark it down as seen.
- ◆ The first player to find four objects in a row - horizontal, vertical, or diagonal - wins the game.
- ◆ For a challenge, see who can be the first to find everything on their sheet!
